OVERVIEW / 01

One system. Many possibilities.

swiss delicious® connects digital guest experiences with efficient service, kitchen, bar and management workflows.

GUESTS

Discover and order

QR menus, digital wine lists, self-service kiosks, bowling offers and robotic experiences.

SERVICE

Serve and charge

POS, guest-call systems, Service Watch, and service and cleaning robots support your team.

KITCHEN

Prepare and coordinate

Route orders to the right kitchen and bar displays, with clear order status.

MANAGEMENT

Manage and improve

Central data management, reporting, permissions, locations and digital communication.

01 **Discover**

02 **Order**

03 **Deliver**

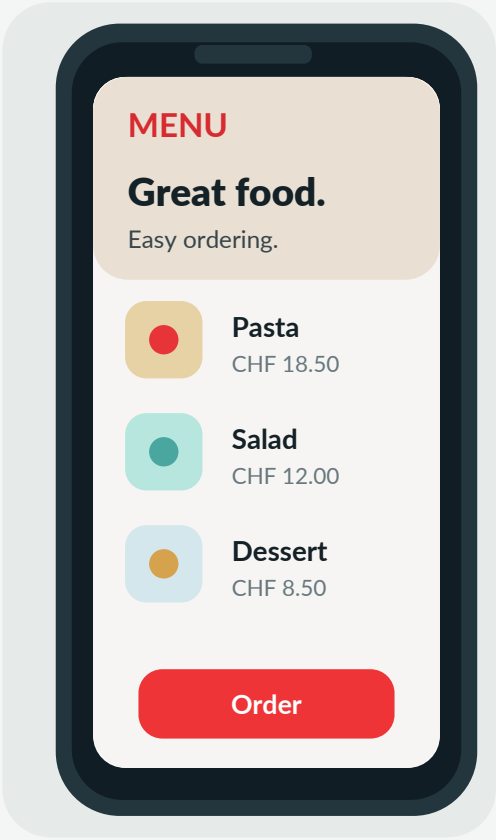

04 **Analyse**

Combine modules as required – from a single digital touchpoint to a fully connected business.

GUESTS / 02

QR Menu & Digital Menu

From scan to order: guests open the digital menu directly in their browser – no app or registration required.

MENU BY QR CODE

Scan. Choose.
Order directly.

No app required

Open the menu on a smartphone using a QR code or web link.

Order and pay

Guests can order and pay directly; service calls are also possible.

Kitchen updates

Orders and table details reach the appropriate devices.

Details

SERVICE / 05

Guest Call System & Watch

One press is enough: service requests reach the staff members who can handle them.

Direct guest contact

Send calls using a button, QR code or digital menu.

Targeted notifications

Service Watch, POS and displays show the request and its location.

Versatile deployment

Suitable for restaurants, hotels, retail and more.

Details

KITCHEN / 06

Kitchen & Bar Displays

Digital orders at the right workstations – organised, filterable and with feedback to service teams.

Organised tickets

Filter orders by station, category, status or time.

Team coordination

Multiple screens work together, while special requests remain visible.

Notify service

Send ready-order updates and questions to mobile POS or watches.

CONNECTED WORKFLOWS / 12

One workflow. Many benefits.

From a guest's first interaction to service, kitchen, robotics and reporting: our modules connect each stage.

01 **GUEST**
QR menu / kiosk / bowling →

02 **SERVICE**
POS / guest-call system →

03 **KITCHEN**
Order display / bar →

04 **ROBOTS**
Service / cleaning →

05 **MANAGEMENT**
Back office / reporting →

FLEXIBLE COMBINATIONS

Whether you start with a QR menu, POS, kitchen display or robot, modules can be added step by step. Service and cleaning robots fit into the right operational workflows.
